"Not even to save herself from an involuntary trip to the cold gravyard, would she transgress her life-long principles of total austinence from swarything alcoholic." KRIPER ON THE ORIO CAMPAIGN.

No Disaffection in the Republican Party The Prohibition Vote.

[New York Tribone.] General J. Warren Kelfer, of Ohio, Ex-Speaker of the House of Representatives, is at the Fifth Avenue Hotel. Speaking of Ohio politics, he said last evening to a Tribune representative:

"My impression is that we are going have an interesting and a winning campaign in Ohio. The Republican party was never better as to all its factions in Ohio than now. While it is true that we never had any divisions in the large sense between Stalwartism and Conservatism, yet it would be blindness to say that we have had no factions, but they are all sunk out of night at present."

"What about the Prohibition vote?"
"I think the policy of the Prohibition part; of aggressiveness against the Republican party is going to cut off wholly from the Prohibition movement the temperance people of the State. The attacks of the Prohibitionists are serving to unite us by sending back the temperance votes. The impression that there is to be a large Prohibition vote is without

good grounds."
"It is asserted by Probibitionists here that the entire Methodist Church membership of

the State is arrayed with them."
"The Methodist Church will resent in the most heroic way the idea that because a large proportion of Methodist preachers have gone into politics they are obliged to follow the leadership thus assumed. The recent Prohibition Convention, which was held in Prohibition party votes and will be cast for the Prohibition ticket is absurd. There is no Prohibitionist in Springfield or the State today who was not a Prohibitionist when their convention met.'

"How is the Administration regarded?" "The Democrats have at length discovered that there are not offices enough to go round, even if Mr. Cleveland was ready to distribute gruntled for many reasons. The civil service reform hypocrisy of the Administration is now well understood. It makes no friends for the Democratic party, either among Democrats or Republicans. THE DUTIES OF THE GENTLER SEX-

What a great task is assigned to wo-man. Its dignity can not be elevated. It is not her province to make laws, to lead armies, nor to be at the head of great enterprises, but to her is given the power to form those by whom the laws are made, to teach the leaders of mighty armies and the governors of vast empires. She is required to guard against having the slightest taint of bodily infirmity touch the frail creature whose moral, intellect-ual and physical being is derived from her. She must instil correct principles, inculente right doctrines, and breathe into the soul of her offspring those pure sentiments which in time to come will be a part of themselves, and bless generations yet unborn. Yes, to woman is given the blessed privilege of aiding the sufferer in all the various stages of his existence. She smiles serenely at the christening, and weeps at the burial, while she soothes the bereaved heart. This is her province and duty. Yet how can she fulfill her mission unless possessed of a strong and healthy body? The preparation of Dr. S. B. Hartman, and known as PERUNA, is just the thing for persons suffering from a ma-jority of the complaints incident to this climate. It is invaluable to women, and Mrs. J. W. Reynolds, of New Lisbon, Columbiana county, Ohio, is a noted example of what the medicine can do. She says she has suffered for years with congestion of the lungs, catarrh in the head, and was troubled with a bad cough. She had tried a number of physicians, but they all failed to cure her. She was in-duced to try Peruna, and immediately a firmed invalid. He could not sleep well, neither could be work. He used PERUNA and as a result, was completely restored to his former vigor and strength. He says he now feels like a new man. Mr. Bernhardt Scubs, St. Clair, St. Clair county, Mich., says: "I have thor-

oughly tried your PERUNA in the various diseases to which parents and a large fam-ily of children are ever liable, and I find it in every case to be just the thing needed.

No family can honestly be without it."

The great sand dunes along the banks of many rivers, and particularly along the shores at the southern end of Lake Michigan, are due to the presence of the Ammophila Arenaria, or sandgathering grass, which possesses a remarkable power of drawing up moisture.
